

The new Radia R-320 by BG is the most versatile model in the new Radia Architectural Series. An updated version of a classic, this compact in-wall can fit almost anywhere while easily filling your listening space with amazing sound.

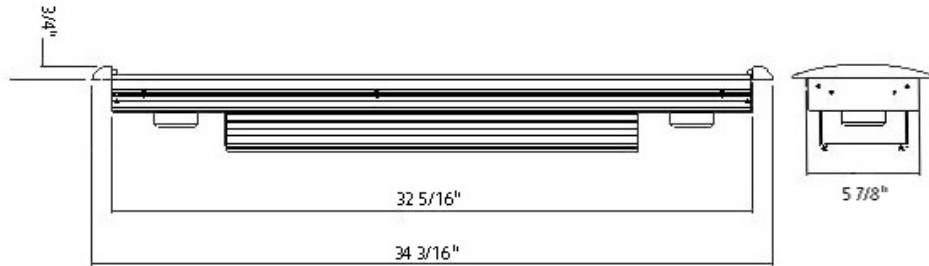

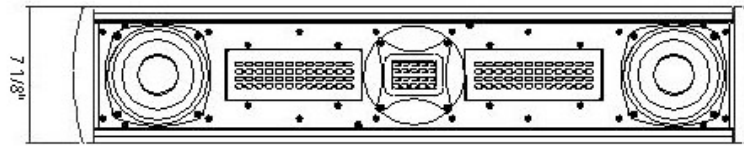

Driving the R-320 are two 8" midrange planar ribbons, our patented Neo3PDR tweeter and two 5.25" long-throw woofers featuring the latest neodymium magnet technology. This three-way symmetric array takes advantage of both conventional loudspeaker design, as well as our proprietary PDR planar technology, offering the best of both worlds. The result? Stunning sound in a compact form that can be easily mounted in an opening less than 6" wide and 4" deep.

As with all Radia loudspeakers, the R-320 is hand crafted from the finest materials such as high-grade steel and aircraft grade aluminum. The speaker's rugged, precision frame reduces wall resonance, making it an excellent choice for professional installations, where there is zero tolerance for error and maximum demand for high fidelity. In addition, the R-320 is paintable allowing your customer to match the finish to their decor.

Compact yet powerful, the R-320 delivers a deep, spacious soundstage with lifelike imaging and uncanny accuracy for a wide array of locations and applications.

- > **Rugged** Highest quality components will provide a lifetime of trouble-free enjoyment
- > **Versatile** Perfectly suited as a horizontal center channel, main or surround speaker
- > **Stylish** Attractive industrial design with paintable grille and frame to match any decor
- > **Lifelike** Horizontal dispersion creates expanded soundstage and wider "sweet spot"
- > **Accurate** Planar ribbon drivers provide superior clarity, resolution and fidelity of sound

> GENERAL PARAMETERS:

System type	Three-way symmetric hybrid array
System dimensions (HxWx Installed Grille H)	34 3/16 x 7 1/8" x 3/4 (86.7 x 17.9 x 1.9 cm)
Weight	14.2 lbs. (6.5 kg)
Wall cut-out size	32 5/16" x 5 7/8" (82 x 15.2 cm)
Driver complement	2 x 5.25" long-throw Neodymium magnet woofers 2 x Neo8 Planar Midrange drivers 1 x Neo3PDR Planar ribbon tweeter
Crossover	450 Hz, 2.4 kHz, passive
Frequency response	50 Hz -25 kHz (-6 dB, half space)
Sensitivity	88 dB /2.83 V / 1m
Rated impedance	4 ohms
Power handling	200 W RMS
Warranty¹	Lifetime to the original owner
